It has been 50 years since the death of Le Corbusier, the Swiss-born architect, artist and writer considered by some to be the most influential force in the way modern cities are designed and built.

To mark his life and work and his contribution to modernism in India, the Embassy of Switzerland in India has planned events to celebrate his artistic and architectural achievements. The exhibition 'Le Corbusier - Mastering the Image' opens in Chandigarh while the book 'Le Corbusier: Ideas and Forms' by William J.R. Curtis, architectural historian will be released in New Delhi this October.
