Composer, performer and creative animateur, Nik Bärtsch, has emerged as a major force in contemporary European music. Bärtsch, who has created a highly individual form that fuses jazz, funk and minimal music, will tour India with the zen-funk quartet RONIN. Ronin incorporates elements of disparate musical worlds, be they funk, new classical music or sounds from Japanese ritual music.

Following close on the heels of Nik Bärtsch's tour, is QUANTUM by choreographer Gilles Jobin, recipient of the Swiss Grand Award for Dance 2015, in Bangalore and Delhi. Jobin's radical artistic directions have made him a pioneer among a new generation of European choreographers. He was awarded the first Collide@CERN Geneva prize in Dance and Performance for his proposal to explore through interventions and dance the relationship between mind and body at the world's largest particle physics laboratory.

Do save the dates and come view the brilliance of these two stars from the Swiss cultural firmament!
